\$7.5 million — Hollywood Hills West

Reality television personality and professional life coach **Melanie Marlo** sold a newly built home in the 1400 block of Stebbins Terrace for the asking price.

Designed by the owner herself, the three-level residence packs in a range of custom features. Exotic stone finishes line the countertops; sliding glass walls transform indoor-outdoor spaces; and a wall fire feature accompanies the saltwater swimming pool.

Completed this year, the Hollywood Hills West contemporary was designed by Melanie Marlo and features walls of glass, smart-home technology and a saltwater swimming pool. (The Agency)

Smartphone apps control nearly every aspect of the 3,549-square-foot home, including lighting, fireplaces and the swimming pool.

Aaron Kirman of John Aaroe Group and Billy Rose of the Agency were the listing agents. Paige Mramer of Finley Realty represented the buyer.

These are among the top residential real estate sales reported on the combined L.A./Westside Listing Service for the period beginning Feb. 21 and ending March 5.
